

## Break out Room 11

<p>In 2027, as a result of the work that's been done to reduce carbon emissions, what will be better about</p>	<p>One or two answers agreed by the group. One idea per answer Bullet points not sentences.</p>
<p>Your home?</p>	<p>Making choices easier but without over-restricting - clearer, simpler information - on purchasing, recycling, heating, etc. There is a role for regulation and government but knowledge should be shared and exchanged between and within communities/neighbourhoods.</p>
<p>Your neighbourhood?</p>	<p>15 minute city in practice across all neighbourhoods and community neighbourhood champions/organisers to improve connectivity and proactively building shared resources.</p>
<p>Your city, town or village (depending where you live in South Yorkshire)?</p>	<p>Learning offerings for future (= green) skills particularly for young people. Rethinking movement across the city via public transport and active travel - electric bikes an important element and connecting routes that add ecological and food productivity benefits. Building better on the research, creative industries, manufacturing and economic opportunities from initiatives such as AMRC.</p>
<p>Across South Yorkshire?</p>	<p>SCR to be more democratised and accountable. Community champions at a sub-regional level. Rural land managed better for combined needs of food, flood mitigation, energy and</p>

	biodiversity.
How you spend your day?	<p>Life will be naturally easier to live well with less impact through better choices, knowledge and habits that stick.</p> <p>Wellbeing projects to engage people with nature in a constructive way built in to everyday life from school curriculum through to young people and working people.</p> <p>Businesses engaging employees and stakeholders around sustainability and have the mechanisms to do this.</p>
