

Break out Room 2

<p>In 2027, as a result of the work that's been done to reduce carbon emissions, what will be better about</p>	<p>One or two answers agreed by the group. One idea per answer Bullet points not sentences.</p>
<p>Your home?</p>	<p>-My house would be safely low carbon and warm for all including new and rental housing, transparently regulated and inspected -Access to green spaces with trees, and lots of flowers with increased biodiversity</p>
<p>Your neighbourhood?</p>	<p>-Tasting and smelling local food prepared together in community gardens across generations, as part of shared responsibility to reduce packaging and food miles and gain cooking skills -Seeing communities working together eg tool banks and rehoming giving generously from their own abundance (eg The Buy Nothing Project)</p>
<p>Your city, town or village (depending where you live in South Yorkshire)?</p>	<p>-Smelling clean air and hearing the birds as people actively choose integrated enjoyable public transport using clean energy, walking, cycling (including shared ebikes schemes) -Communities valued and decisions driven for the community by the community including well run and well funded community assemblies.</p> <p>Note from Cathy (scribe) Last 2 boxes we ran out of time but I have put in bullets I had noted that the group had agreed on together though they did not see the final version.</p>

Across South Yorkshire?	<ul style="list-style-type: none">-Education and inclusion of all across generations-Spaces for young people which including addressing food poverty in a systematic and inclusive way
How you spend your day?	<ul style="list-style-type: none">-Recreate the quiet, peaceful, bird-song filled mornings of lockdown.-Accessing really good recycling and zero packaging facilities so I can be zero waste with ease!
