

Break out Room 3

<p>In 2027, as a result of the work that's been done to reduce carbon emissions, what will be better about</p>	<p>One or two answers agreed by the group. One idea per answer Bullet points not sentences.</p>
<p>Your home?</p>	<p>(Apologies that we didn't get to prioritise these.)</p> <p>Better policies for homes in the local plan Retrofitting carried out at neighbourhood level in a collaborative not coercive way Retrofit some homes to be beacons/ models for what is possible</p>
<p>Your neighbourhood?</p>	<p>Neighbourhoods: Emphasis on physical and mental well-being Pride in place; sense of ownership Everybody feels included and has a voice Locally based facilities with safe spaces for all age groups Activities that engage teenagers, that genuinely include them Care homes with growing and wildlife areas A better balance of local shops with supermarkets Circular economy – appliances hired or rented; repairing (DIY and skill sharing); sharing of toys etc Streets safe to play in; wider pavements for bins and wheelchairs – humans and greenery at the</p>

	<p>front of our houses; raised pavements across the road junctions to prioritise pedestrians over cars</p> <p>Infrastructure for a mixed fleet of low carbon vehicles – electric bikes, golf buggies, electric cars, etc – opportunity to test these for a week</p> <p>Food and growing: Community gardens and allotments > seasonal local food, seeing the journey from seed to the plate, sharing and developing stories and skills in cooking and eating – a qualitative shift to joy More community gardens where people can garden together, not separately Foraging; giant planters with edible vegetables for anyone to forage, right across the city</p>
<p>Your city, town or village (depending where you live in South Yorkshire)?</p>	<p>City-wide: Localised city improvement groups that local people participate in; people in all parts of the city feel valued</p> <p>Travel: A shift to prioritising walking and jogging, saying goodbye to traffic noise and air pollution Make the arterial rivers into Sheffield more walkable</p>
<p>Across South Yorkshire?</p>	<p>Full employment including lots of green jobs Roll out all the local ideas above across the region Woodlands well looked after – trees planted and well-managed Town and country linked – ‘twinning’ between urban and rural areas – projects with children to help them to experience both</p>
<p>How you spend your day?</p>	<p>Engaging, participating and learning: Conversations and classes everywhere – everyone in the know and excited about what’s going</p>
