

Break out Room 5

<p>In 2027, as a result of the work that's been done to reduce carbon emissions, what will be better about</p>	<p>One or two answers agreed by the group. One idea per answer Bullet points not sentences.</p>
<p>Your home?</p>	<p><u>Better insulated, more energy efficient - lower fuel bills but not colder</u> <u>Fewer disposable products - right to repair on appliances, no built in redundancy</u></p> <p>Greater opportunities to recycle Quieter garden - less traffic noise, more wildlife</p>
<p>Your neighbourhood?</p>	<p><u>Growing projects - with unused space - better soil quality, community project, food growing</u> <u>Less litter</u></p> <p>Cleaner air and less traffic , fewer littered facemasks More trees Flourishing local businesses - especially those affected by the pandemic Greater integration Includes more deprived areas, make sure everyone benefits Contributes to poverty reduction Relevant to everyone, opportunities for everyone to get involved</p>

	Involves residents in disadvantaged groups - eg mental health
Your city, town or village (depending where you live in South Yorkshire)?	<p><u>Green centre of Sheffield, more visitors and reduced temperatures</u> <u>Reimagine city centre - less retail and commercial space needed and rewild other spaces. Farms in city centres</u> <u>More equality - life expectancy differences. Better nutrition, lower energy bills</u></p> <p>Less noisy More electric cars and more charging points More cycling routes, prioritisation for bikes Financial support for electric bikes Integrated transport system E-scooters Public transport - good high quality bus routes. Low emission buses. Low or free fares Better connections between local areas, not just town centre. To rural areas including Peak District More people living in the city, reduced need to travel (is this likely with more working from home?)</p> <p>More affordable, energy efficient housing. More conducive to community</p> <p>Reduced poverty premium - residents have more money and can spend on better quality food, fruit and vegetables rather than crisps and chocolate</p>
Across South Yorkshire?	<p><u>Better placement of housing, more affordable, more energy efficient smarter.</u> <u>Different approaches to housing</u> <u>Better public transport across SY</u></p>

	<p>Regenerating eco systems, more wildlife End of unsympathetic developments - eg far from local amenities and public transport Lilac - Low Impact Living Across Leeds More renewable energy Composting and better use of food waste National recycling standards, facilities for every kind of recycling More refill shops, more loose fruit and veg. Less plastic waste Less reliance on animal products and animal agriculture Less use of pesticides Ban on destroying ancient woodland</p> <p>Locally grown food Focus on deprived areas across SY Build Black Lives Matter into solutions</p>
<p>How you spend your day?</p>	<p>More online working, flexibility (working hours, locations, part time working, management culture) - which is better whf or in office? Transfer of costs? Shared working spaces, local hubs, includes activities</p>
