

Break out Room 7

<p>In 2027, as a result of the work that's been done to reduce carbon emissions, what will be better about</p>	<p>One or two answers agreed by the group. One idea per answer Bullet points not sentences.</p>
<p>Your home?</p>	<p>House improvements/practicalities:</p> <ul style="list-style-type: none"> ● Electric solar/thermal panels, and hydro power panels, double glazing, insulation, more electric than gas, LEDs around the house, more dimmer switches and motion detectors, USB sockets and outlets, flooring that contributes to insulation, affordable green energy tariffs, improvements suitable to property type/housing stock <p>Fewer/Less:</p> <ul style="list-style-type: none"> ● Electrical appliances in the home ● Home improvements that are wasteful ● Polluting vehicles on driveway ● plastic in the fridge, food in house the production of which has caused harm <p>Atmosphere/feel</p> <ul style="list-style-type: none"> ● Calmer, cleaner, friendlier, slower, with more understanding, agency and connection ● Gardens as active places for wildlife, working with neighbours, corridors for wildlife ● Children not subject to peer pressure to consume, less pestering for new things due to wider culture shift and awareness
<p>Your neighbourhood?</p>	<p>New Streets</p> <ul style="list-style-type: none"> ● Our streets to be places to interact, play, occupy and commune. Taking most of the cars

	<p>away and replace them with a few shared electric vehicles, bike storage, trees, SUDS & places to sit. Creating segregated cycle lanes that are child cycle friendly</p> <p>Community Organising and agency</p> <ul style="list-style-type: none"> ● Regular community organising and management -neighbourhoods sharing heat source pumps, growing spaces, areas for wildlife, retrofitting, energy & transport, communal spaces. Sharing School run - walking bus/train, bike bus concept
<p>Your city, town or village (depending where you live in South Yorkshire)?</p>	<p>low carbon transport/organisations: Clean energy frequent buses (electric), tram out to many more areas, better connected public transport network Bicycle hire available in the city Primarily pedestrianised centre All organisations/businesses have been carbon literacy trained and adapted their business models e.g. Carbon Literacy Project Organisations are supported to embed sustainability rather than treat it as an add-on.</p> <p>Friendly green communities: More green in the city - living roofs, walls, more grey to green Waterways - daylighting and paying attention to areas around them City centre being a place where you go to think, make, play, gather, connect with wider community, rather than shop - hubs in the centre, public amphitheatres Shop locally City as a shared home for people and wildlife - a park with buildings</p>
<p>Across South Yorkshire?</p>	<p>Greening transport networks/infrastructure. Electric trains, every station with a bike hub</p>

	<p>Lots of community bike/cycle shops Always a safe protected alternative to an A road.</p> <p>Technology Sheffield is known as a technology hub, brought through council incentives. Bringing more tech R&D into region and utilising it locally. Greater connectivity, internet infrastructure more effective.</p> <p>Back to Nature Climate justice and redesign of cities have to challenge inequalities. Food growing - regional rural supply, relationship between producer and consumer is brought much closer. Catchment, what the area produces, and how this can sustain the region's people. Footpaths, ease of using them, accessing them, enjoying them. Tourism encouragement in the Peak District proximity, new ideas and connected businesses supported. Wider variety of accommodation choices.</p> <p>Additional benefits and planning. Working on strategies to hang on to some of the environmental benefits of the reduced commuting experienced through Covid 19 at a regional level. Regional taxation model - connected to carbon production/reduction</p>
<p>How you spend your day?</p>	<p>Working day: Shorter working day, more virtual meetings, greater choice Choice to work for a carbon negative employer - or a choice of at least carbon neutral employers</p> <p>More time in nature: Gardening/being outside as part of the day Time spent exercising in nature - walking/cycling/electric scooters</p>

Slowing down:

Slower, calmer days - not constantly expanding, trying to do a million things

More connection, friendlier, more time with family

Engage in culture every day

Culture change in the workplace -
