|--|--|
| <p>In 2027, as a result of the work that's been done to reduce carbon emissions, what will be better about</p> | |
| <p>Your home?</p> | <ul style="list-style-type: none">** Green energy in our homes** Waste collections have been re-thought (less individual bins) Cold victorian house being warm.Shared heat pump for group of flatsGood windows and doors doneSolar power and air conditioning being combinedProducing our own energyWorking more from home, less needless meeting travelNo plastic in bathroom, in houseWill be easy to make the better choicesShared bins at end of the road, less clutter on the pavementHome spilling out into the street. People putting their pots, seats, gardens out into the streetChildren free to play in/outHouseholds less atomised and more intergenerational. Easier to look after older people in our homesAdopt a granny |

| | |
|----------------------------|--|
| | |
| <p>Your neighbourhood?</p> | <p>** More social, participatory and inclusive (we know/trust our neighbours). Easier to use street space socially. We own our public spaces.</p> <p>** There are many fewer cars: shared electric car/scooters ownership schemes and communal bike sheds.</p> <p>For older people, at home a lot, what is in immediate area is important Doing practical things together, with more support to facilitate activity Meeting neighbours more, sharing time, as a normal thing to do Recognising more people, saying hi Being able to see each other more in the street - while having enough privacy! No cars on the street - can see the street and houses Electric shared car on the road, booked online Sharing gardens - some who want more space, some who can't look after what they have Growing/sharing produce Planters on the street, in lots of neighbourhoods. Using all sorts of small bits of space to grow things Walking through parks, no more pollution damage to leaves and trees. Something everyone notices and cares about Using parks as ways to get somewhere, not broken up with dual carriageways No McDonalds No litter No advertising No graffiti? Or not defacing? People feeling that they matter, that they have a say in what their neighbourhood is like People having power to do something in their area, with resources to use</p> |

| | |
|--|---|
| <p>Your city, town or village (depending where you live in South Yorkshire)?</p> | <p>** Intergenerational exchange: children learning outside, older people and life-long learning very present **Public spaces greener and fit for purpose - social, safe, well designed, wilder and public</p> <p>Schools using outdoor education more, using online teaching more Groups of children around in the city, museum, cathedral etc. No one needing to sleep rough People experiencing the green space, Peak District - from all backgrounds, parts of the city Birds, owls, wildlife both the Peak and in the city Birds can be heard in the city centre How to experience the open space, sitting able to see the plants, river, etc Feeling safe in green spaces, parks Community allotments in areas with less green space.</p> <p>Working from home, Zooming? Meeting people from across the world, but not making that the only way to be in touch Working less, 3 day week. Reducing unemployment. Less stress, burnout, mental health problems Living wage, basic income for all Time for volunteering, things that are meaningful to us and connect us, between generations Time for spending time in green space, lifelong learning Work that makes things, manufacturing, repairing South Yorkshire known for making and repairing Repair cafes in city centre</p> |
| <p>Across South Yorkshire?</p> | <p>** Lots of land related jobs: lots of people work on forestry, restoration, wilding. **It is more accessible: in terms public transport, public toilets and connecting our countryside to cities with paths/cycle paths</p> <p>More people in the countryside - more visiting</p> |

| | |
|-------------------------|--|
| | <p>Rewilding, spaces coming back to life People walking, cycling, accessible transport to get out of city to countryside easily Employment, forestry, farming, land management having lots of people working in those spaces Information on what is happening both digital and visible in person, letting people keep aware of what is around them</p> |
| How you spend your day? | |
